Then click on X-Reading
or input 92 in
Enter Option #.

Receipt printer will
produce this report.

Note: Authorization may be required to perform this operation

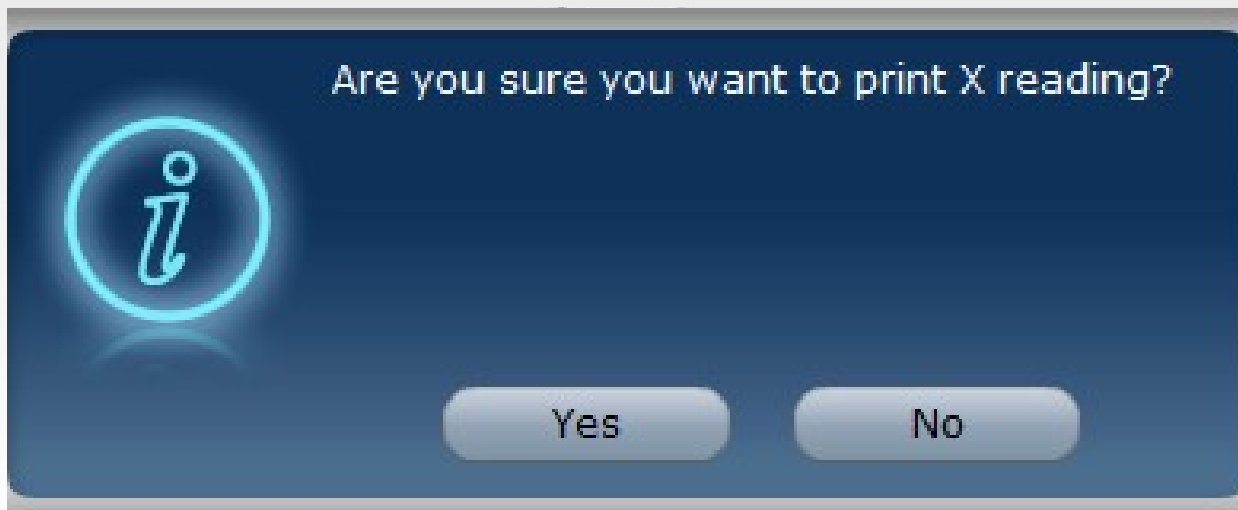

The screenshot displays the software interface with a top navigation bar containing tabs: Individual, Pickup, Delivery, Queue, Counter, and Options. Below this is a 'System Menu' section with two columns of buttons. The 'X Reading' button in the second column is circled in red. The buttons in the first column are: Change Fund, Pickup Amount, Reprint Last Receipt, Frank Last Receipt, Open Sales Record, Debit Card Inquiry, Time Card, Open Drawer, and Change Password. The buttons in the second column are: Cashier Report, X Reading, Z Reading, Tenant Data, Sales Book, Reset Configuration, and Sign Off.

Click on Options tab.

Then click on X-Reading

Receipt printer will produce this report.

A message will prompt to confirm printing; click Yes to proceed.

Note: Run an X-Reading for partial summary of the terminal's transactions. Perform Z-Reading at the end of the day/closing for full summary of the terminal's transactions.

X Reading is different from a Cashier Report.

X Reading shows all the transactions of a single terminal where there may be more than 1 cashier (shifting schedules).

Cashier Report shows all the transactions done by a single cashier.
