

# PRODUCT CHOICES

MODULE WALKTHROUGH

FEBRUARY 2012

## PRODUCT CHOICES

You can now easily setup product choices (known as Dynamic Kitting). Your business will be flexible to the product preferences of diners and bundle these into one value meal or package.

Shows the product and its composition together with the add-on computation.

# Report – Transaction List

In Headquarter System, go to Sales Report and select Sales Transaction List.  
 Select the line with the chosen transaction.

### Transaction Detail

Receipt No: [0001]-19	Sales Tax: 33.11	Gross: 309.00
Date: 02/03/2012 0617	Tax Sale: 309.00	Cash: 309.00
# of Customers: 4		Cash Received: 309.00
Cashier: Cashier		
Branch: Resto		

Qty	Unit	Product	Tax	Price	Discount	Total	Memo
1	PCS	Value Meal 299 Base Price @299.00 Beef Burger Cheezy Fries @ 10.00 Coke	V	309.00		309.00	
		4 items				309.00	

The record will likewise show how product choices are lumped together.

In Headquarter System, go to Sales Report and select Sales Summary by Product. Set filters.

Sales by Product

← Previous    1-1 of 1    Next →

	Date	Product ID	Product	Qty	Total	%	Cost	Tax	Gross Profit	%
1	02/03/2012	VM1	Value Meal 299	1	309.00	100.0%	0.00	33.11	275.89	100.0%
			1 item	1	309.00		0.00	33.11	275.89	

You can view sales report by parent product (in this case, Value Meal 299).

Sales by Product

← Previous    1-1 of 1    Next →

	Date	Product ID	Product	Qty	Total	%	Cost	Tax	Gross Profit	%
1	02/03/2012	BBRG	Beef Burger	1	0.00		0.00	0.00	0.00	
			1 item	1	0.00		0.00	0.00	0.00	

You can also see report by composition of a Value Meal.

Note: Composition will have no total price since it is aggregated to the parent. However, for add-on products in a meal, it will show in the price column
