To see sales performance for a single product, enter the Product ID. You may also view sales by product category.

If you only set a Period filter, it will show sales categorized by product.

This report shows the sales breakdown per product. In this case, there is no filter by Product or Product Category so it shows all of the items that were sold within the period filter. To see Transaction Detail and Payment List, select the item and click the Detail button.

The bottom of the page shows summary of quantity, discounts, and total sales.
