

EDIT ACCOUNT

WALKTHROUGH

Access the WebPOS home page (URL <http://www.alliancepos.net>) and click on Headquarter System.

To change your password, go to Maintenance > User Account

The screenshot displays the Alliance Access software interface. At the top, a navigation bar includes 'Home', 'Daily Operation', 'Sales Report', 'Inventory', 'Master Records', 'Maintenance', and 'Logout'. The 'Maintenance' menu is open, showing options such as 'POS Terminal', 'Company Information', 'Security Access', 'Audit Trail', 'Upload Master Data', 'Change Password', 'User Account' (highlighted), 'Help Desk Support', and 'Local Options'. On the left, the 'Sales Dashboard' is visible, featuring a bar chart with a y-axis from 0 to 120,000. The dashboard includes filters for 'Branch: (All)', 'Date: 02/21/2012', 'Report: Sales Trend', and 'Period: Jan 22 - Feb 21, 2012'. On the right, there is a 'Refresh every (mins):' input field and a 'Revenue' dropdown set to '(Base Product)'. Below this, a smaller bar chart is partially visible with the label '1.Blackberry 9'.

Click on Edit to make changes in your account.
